

CHLORINE CYLINDER CDU STORAGE & DOSING UNIT

 IXOM

Key Product Features:

- Duty/standby cylinder arrangement with Superior™ automatic cylinder changeover
- Storage of 2 x duty/standby cylinders plus storage room for an additional 2 x cylinders
- Select any ColorBond™ colour for the building
- ChlorGuard™ emergency shutdown system
- Portable with minimal site civil work required
- AS/NZS 2927 compliant
- Delivered fully assembled and ready to use

Ixom, with our extensive knowledge and experience in the safe manufacture of Chlorine for water treatment has developed an innovative, safe and cost effective solution for the storage and dosing of Chlorine for small to medium applications.

The solution incorporates a two-room portable building which allows the system to be designed, manufactured and factory tested by Ixom, prior to delivery. Therefore, minimising the cost, risk and time associated with site installation.

Ixom's system complies with all legislative requirements and AS/NZS 2927.

Safety in Design:

Each Chlorine CDU has been designed to incorporate Ixom's extensive knowledge and best practice in Chlorine gas storage. Ixom's Chlorine CDU's meet the requirements for AS/NZS 2927 and have been reviewed using the Ixom HAZOP process to minimise operational and safety risks, ensuring safety in design.

Configurable Product To Suit Your Application

- High pressure carrier water circuit
- SCADA integrated inline water quality instruments
- Building insulation with air conditioning
- Multiple carrier water dosing combinations
- Pressure pump system for eyewash and showers
- Superior™ auto-valve integration for effective dosing control
- External lighting
